Farm-to-Factory Quality & Processing Infrastructure

State-of-the-Art Processing, Steam Sterilization & Optical Color Sorter Lines in Mahuva

MAHUVA, GUJARAT, INDIA

The Mahuva Agro Advantage

Amar Foods is strategically headquartered in **Mahuva, Saurashtra, Gujarat**, celebrated globally as the epicenter of onion cultivation. The fertile black cotton soil, high sun exposure, and low sulfur irrigation water yield onions and garlic with exceptionally high dry-matter content, rich naturally occurring pungency, and superior reconstitution properties.

Through structured contract farming and direct mandi procurement at the APMC market, we guarantee complete supply chain traceability from seed variety to final export carton.

Processing Excellence & Cleanliness

Our ultra-modern dehydration plant operates automated five-stage bubble washer lines, continuous multi-stage hot air dehydration tunnels, automated stainless-steel (SS 304) kibblers, magnetic metal separators, and high-resolution Buhler optical color sorters.

Every single export batch is subjected to rigorous in-house physical, chemical, and microbiological testing (Moisture, Total Ash, Acid Insoluble Ash, TPC, E. Coli, Salmonella, Yeast & Mold) in compliance with US FDA, European Union (EU), and Codex Alimentarius standards.

International Accreditations & Certifications

Amar Foods operates under stringent international food safety systems, facilitating seamless customs clearance across the European Union, United States, Middle East, Japan, and Southeast Asia.

Dehydrated White Onion Series

Kibbled Flakes, Chopped, Minced, Granules & Ultra-Fine Powder

5 EXPORT GRADES

ORIGIN: MAHUVA, GUJARAT, INDIA

Dehydrated White Onion Flakes

8-15 MM FLAKES

Crisp white kibbled flakes, clean sweet aroma.

Purity: 99% min **Moisture:** ≤ 6.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated White Onion Flakes (Kibbled) offer 8-15 mm size with bright white appearance. Essential for food processors requiring non-staining onion flavor.

Size / Mesh	8 - 15 mm Kibbled Flakes
Moisture Content	Max 6.0%
Total Ash	Max 4.5%
Acid Insoluble Ash	Max 0.5%
Microbiological	E.Coli: Negative / Salmonella: Absent

KEY QUALITY ATTRIBUTES

- 8-15 mm large white kibbled flakes
- Clean white to ivory natural color
- Mahuva white onion cultivar
- Optical color sorted for purity

INDUSTRIAL APPLICATIONS

- White sauces, mayonnaise, and creamy soups
- Canned vegetables and meat products
- European and American food processing
- HoReCa bulk kitchens

ORIGIN: MAHUVA, GUJARAT, INDIA

Dehydrated White Onion Chopped

3-5 MM CHOPPED

3-5 mm white chopped bits for ready meals.

Purity: 99% min **Moisture:** ≤ 6.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated White Onion Chopped features 3-5 mm cut white onion bits, fast reconstituting for soups, canned foods, and dry food mixes.

Size / Mesh	3 - 5 mm Chopped
Moisture Content	Max 6.0%
Total Ash	Max 4.5%
Acid Insoluble Ash	Max 0.5%
Microbiological	Microbial Count < 100,000 CFU/g

KEY QUALITY ATTRIBUTES

- 3-5 mm chopped uniform cut
- Bright ivory white appearance
- High natural pungency
- Sealed in poly-lined export cartons

INDUSTRIAL APPLICATIONS

- Instant soup cups and noodle seasoning packets
- Pizza toppings and prepared meals
- Sauce and gravy manufacturing
- Cereal and savory snack inclusions

Inquiry Hotline / WhatsApp: **+91 72840 88737** | export@amarfoods.com

Dehydrated White Onion Series

Kibbled Flakes, Chopped, Minced, Granules & Ultra-Fine Powder

5 EXPORT GRADES

ORIGIN: MAHUVA, GUJARAT, INDIA

Dehydrated White Onion Minced

1-3 MM MINCED

1-3 mm minced white onion bits for fast dissolution and texture.

Purity: 99% min **Moisture:** ≤ 6.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated White Onion Minced features 1-3 mm cut white onion bits, providing uniform texture and aromatic pungency for seasoning blends, sausages, and prepared meals.

Size / Mesh	1 - 3 mm Minced
Moisture Content	Max 6.0%
Total Ash	Max 4.5%
Acid Insoluble Ash	Max 0.5%
Microbiological	Microbial Count < 100,000 CFU/g

KEY QUALITY ATTRIBUTES

- 1-3 mm uniform minced cut
- Natural ivory white color
- High aromatic strength
- Hygienically conveyor dehydrated

INDUSTRIAL APPLICATIONS

- Spice seasonings and meat processing
- Soups, gravies, and sauces
- Prepared meals and food service
- Snack food inclusions

ORIGIN: MAHUVA, GUJARAT, INDIA

Dehydrated White Onion Granules

0.5-1 MM GRANULES

0.5-1 mm coarse white onion granules for uniform spice blends.

Purity: 99% min **Moisture:** ≤ 5.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated White Onion Granules offer 0.5-1 mm coarse mesh size. Free-flowing with quick flavor release, ideal for spice rubs, bakery toppings, and ready mixes.

Size / Mesh	0.5 - 1 mm Granules
Moisture Content	Max 5.0%
Total Ash	Max 4.0%
Acid Insoluble Ash	Max 0.4%
Microbiological	Microbial Count < 50,000 CFU/g

KEY QUALITY ATTRIBUTES

- 0.5-1 mm coarse granules cut
- Pure off-white natural color
- Free-flowing high density
- Optical color sorter processed

INDUSTRIAL APPLICATIONS

- Dry seasoning rubs and table spice blends
- Bakery rolls and savory bread toppings
- Processed meats and dry soup mixes
- Industrial food manufacturing

Inquiry Hotline / WhatsApp: **+91 72840 88737** | export@amarfoods.com

Dehydrated White Onion Series

Kibbled Flakes, Chopped, Minced, Granules & Ultra-Fine Powder

5 EXPORT GRADES

ORIGIN: MAHUVA, GUJARAT, INDIA

Dehydrated White Onion Powder

80-100 MESH POWDER

80-100 mesh ultra-fine white onion powder for smooth seasonings.

Purity: 99.5% min **Moisture:** ≤ 5.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated White Onion Powder provides instant dissolves and smooth non-gritty distribution. High natural pungent aroma from Mahuva Gujarat farms.

Size / Mesh	80 - 100 Mesh Fine Powder
Moisture Content	Max 5.0%
Total Ash	Max 4.0%
Acid Insoluble Ash	Max 0.4%
Microbiological	E.Coli: Negative / Salmonella: Absent

KEY QUALITY ATTRIBUTES

- 80-100 mesh fine micro-pulverized
- Clean ivory off-white color
- Instant solubility in liquids
- Non-ETO / Steam sterilized options

INDUSTRIAL APPLICATIONS

- Instant noodles and soup powder bases
- Potato chips and savory snack dusting
- Salad dressings, dips, and marinades
- Pharmaceutical and wellness blends

Inquiry Hotline / WhatsApp: **+91 72840 88737** | export@amarfoods.com

Dehydrated Garlic & Black Garlic Series

Whole Cloves / Flakes, Chopped, Minced, Granules, Powder & Fermented Black Garlic

6 EXPORT GRADES

ORIGIN: GUJARAT / MADHYA PRADESH, INDIA

Dehydrated Garlic Flakes

8-15 MM CLOVE SLICES

Crisp whole dried garlic clove slices with intense pungent aroma.

Purity: 99% min **Moisture:** ≤ 6.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated Garlic Flakes are sliced whole garlic cloves, hot-air dehydrated to seal in high allicin content. Ideal for pickle industries, canned foods, and spice mills.

Size / Mesh	8 - 15 mm Clove Slices
Moisture Content	Max 6.0%
Total Ash	Max 4.5%
Acid Insoluble Ash	Max 0.5%
Microbiological	Microbial Count < 100,000 CFU/g

KEY QUALITY ATTRIBUTES

- 8-15 mm whole dried clove slices
- Creamy yellowish-white color
- High natural allicin content
- No sulfur treatment or additives

INDUSTRIAL APPLICATIONS

- Pickle and chutney manufacturing
- Industrial spice re-grinding
- Canned vegetables and meats
- Catering and institutional food service

ORIGIN: GUJARAT / MADHYA PRADESH, INDIA

Dehydrated Garlic Chopped

3-5 MM CHOPPED

3-5 mm garlic bits for ready-to-eat culinary formulations.

Purity: 99% min **Moisture:** ≤ 6.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated Garlic Chopped provides visible textured garlic pieces (3-5 mm) with sharp savory pungency for garlic bread spreads, pasta sauces, and frozen foods.

Size / Mesh	3 - 5 mm Chopped
Moisture Content	Max 6.0%
Total Ash	Max 4.5%
Acid Insoluble Ash	Max 0.5%
Microbiological	E.Coli: Negative / Salmonella: Absent

KEY QUALITY ATTRIBUTES

- 3-5 mm uniform chopped cut
- Bold garlic flavor impact
- Retains texture upon rehydration
- Optical sorter cleaned

INDUSTRIAL APPLICATIONS

- Garlic bread and bakery butter spreads
- Pasta and pizza sauces
- Frozen ready meals and stir-fry mixes
- Sausage and meat processing

Dehydrated Garlic & Black Garlic Series

Whole Cloves / Flakes, Chopped, Minced, Granules, Powder & Fermented Black Garlic

6 EXPORT GRADES

ORIGIN: GUJARAT / MADHYA PRADESH, INDIA

Dehydrated Garlic Minced

1-3 MM MINCED

1-3 mm granulated minced garlic bits for rubs and seasoning.

Purity: 99% min **Moisture:** ≤ 6.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated Garlic Minced (1-3 mm) delivers rapid flavor release with pleasant mouthfeel in dry seasonings, barbecue rubs, and processed meats.

Size / Mesh	1 - 3 mm Minced
Moisture Content	Max 6.0%
Total Ash	Max 4.5%
Acid Insoluble Ash	Max 0.5%
Microbiological	Microbial Count < 100,000 CFU/g

KEY QUALITY ATTRIBUTES

- 1-3 mm consistent minced cut
- Rich allicin-packed pungency
- Uniform golden-cream color
- Hygienically packaged for export

INDUSTRIAL APPLICATIONS

- Barbecue rubs and dry meat cures
- Salad dressings and dips
- Sausages and charcuterie
- Snack seasonings

ORIGIN: GUJARAT / MADHYA PRADESH, INDIA

Dehydrated Garlic Granules

0.5-1 MM GRANULES

0.5-1 mm coarse garlic granules for spice shakers and bakery.

Purity: 99% min **Moisture:** ≤ 5.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated Garlic Granules feature 0.5-1 mm particle size, resisting caking while offering smooth flowability through automated seasoning dispensing equipment.

Size / Mesh	0.5 - 1 mm Granules
Moisture Content	Max 5.0%
Total Ash	Max 4.0%
Acid Insoluble Ash	Max 0.4%
Microbiological	Microbial Count < 50,000 CFU/g

KEY QUALITY ATTRIBUTES

- 0.5-1 mm free-flowing granules
- Consistent particle size distribution
- High natural pungency
- Ideal for automated dosing lines

INDUSTRIAL APPLICATIONS

- Table spice shakers and seasoning mixes
- Bread toppings and savory doughs
- Dry soup bases and bouillons
- Industrial spice blending

Dehydrated Garlic & Black Garlic Series

Whole Cloves / Flakes, Chopped, Minced, Granules, Powder & Fermented Black Garlic

6 EXPORT GRADES

ORIGIN: GUJARAT / MADHYA PRADESH, INDIA

Dehydrated Garlic Powder

80-100 MESH POWDER

80-100 mesh ultra-fine garlic powder for seasonings and food processing.

Purity: 99.5% min **Moisture:** ≤ 5.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated Garlic Powder is ground from dehydrated garlic cloves to a fine 80-100 mesh powder. Instantly integrates into liquids, sauces, and dry rubs.

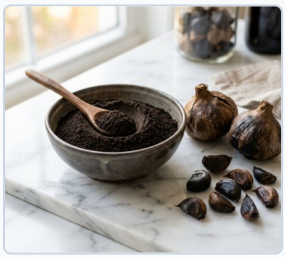

Size / Mesh	80 - 100 Mesh Fine Powder
Moisture Content	Max 5.0%
Total Ash	Max 4.0%
Acid Insoluble Ash	Max 0.4%
Microbiological	E.Coli: Negative / Salmonella: Absent

KEY QUALITY ATTRIBUTES

- 80-100 mesh micro-fine powder
- Pale creamy white color
- High allicin content & strong aroma
- Steam sterilized / non-irradiated options

INDUSTRIAL APPLICATIONS

- Sauces, gravies, and marinades
- Instant noodles and soup bases
- Snack seasoning dusts
- Meat and poultry processing

ORIGIN: MAHUVA, GUJARAT, INDIA

Black Garlic Powder

AGED & FERMENTED

Sweet balsamic umami profile with rich S-allyl-cysteine antioxidants.

Purity: 100% Pure **Moisture:** ≤ 6.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Black Garlic Powder is produced by slow, heat-controlled natural fermentation of whole garlic bulbs over several weeks, followed by dehydration and micro-pulverization. Possesses a dark rich color, mellow sweet balsamic-tamarind taste, zero harsh allicin bite, and elevated S-allyl-cysteine (SAC) antioxidants.

Size / Mesh	80 - 100 Mesh Powder
Moisture Content	Max 6.0%
Color	Deep Dark Brown to Jet Black
Total Ash	Max 4.5%
Microbiological	TPC < 10,000 CFU/g | E.Coli: Negative

KEY QUALITY ATTRIBUTES

- Naturally fermented without chemical additives
- High S-Allyl-Cysteine (SAC) & polyphenols
- Sweet, tangy balsamic umami flavor profile
- Zero pungent garlic breath aftertaste

INDUSTRIAL APPLICATIONS

- Gourmet sauces, glazes, and steak seasonings
- Nutraceutical capsules and wellness supplements
- Artisan chocolates, bakery, and snacks
- Asian fusion dishes and ramen broths

Inquiry Hotline / WhatsApp: **+91 72840 88737** | export@amarfoods.com

Dehydrated Red Onion Series

Pungent Mahuva Red Onion Flakes, Chopped, Minced, Granules & Powder

5 EXPORT GRADES

ORIGIN: MAHUVA, GUJARAT, INDIA

Dehydrated Red Onion Flakes

8-15 MM FLAKES

Crisp red-purple kibbled onion flakes with robust aromatic depth.

Purity: 99% min **Moisture:** ≤ 6.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated Red Onion Flakes (Kibbled) offer 8-15 mm flake size with attractive natural red-purplish hues. Preferred by food manufacturers for colorful visual appeal and rich sweet-pungent taste.

Size / Mesh	8 - 15 mm Kibbled Flakes
Moisture Content	Max 6.0%
Total Ash	Max 4.5%
Acid Insoluble Ash	Max 0.5%
Microbiological	E.Coli: Negative / Salmonella: Absent

KEY QUALITY ATTRIBUTES

- 8-15 mm large kibbled flakes
- Rich purplish-red to pink natural color
- Sourced from Mahuva fertile onion belt
- Optical color sorter processed

INDUSTRIAL APPLICATIONS

- Curry bases, gravies, and stews
- Canned vegetables and meat products
- Salad mixes and dehydrated meal kits
- Industrial food manufacturing

ORIGIN: MAHUVA, GUJARAT, INDIA

Dehydrated Red Onion Chopped

3-5 MM CHOPPED

3-5 mm red onion chopped bits for instant meal formulations.

Purity: 99% min **Moisture:** ≤ 6.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated Red Onion Chopped features 3-5 mm uniform cuts. High reconstitution ratio with genuine onion texture for dry soups, noodles, and ready-to-eat meals.

Size / Mesh	3 - 5 mm Chopped
Moisture Content	Max 6.0%
Total Ash	Max 4.5%
Acid Insoluble Ash	Max 0.5%
Microbiological	Microbial Count < 100,000 CFU/g

KEY QUALITY ATTRIBUTES

- 3-5 mm precision chopped cuts
- Vibrant red-violet color particles
- Excellent reconstitution in hot water
- Export packed in sealed cartons

INDUSTRIAL APPLICATIONS

- Cup noodles and instant ramen garnish packets
- Pizza toppings and pasta sauces
- Dry soup mixes and stews
- Seasoned savory snacks

Inquiry Hotline / WhatsApp: **+91 72840 88737** | export@amarfoods.com

Dehydrated Red Onion Series

Pungent Mahuva Red Onion Flakes, Chopped, Minced, Granules & Powder

5 EXPORT GRADES

ORIGIN: MAHUVA, GUJARAT, INDIA

Dehydrated Red Onion Minced

1-3 MM MINCED

1-3 mm minced red onion bits for dry seasonings and meat coatings.

Purity: 99% min **Moisture:** ≤ 6.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated Red Onion Minced provides 1-3 mm granules for rapid dissolution and balanced pungency across burger patties, sausages, and dry seasoning blends.

Size / Mesh	1 - 3 mm Minced
Moisture Content	Max 6.0%
Total Ash	Max 4.5%
Acid Insoluble Ash	Max 0.5%
Microbiological	Microbial Count < 100,000 CFU/g

KEY QUALITY ATTRIBUTES

- 1-3 mm consistent minced particles
- Natural red-pink flecks for visual appeal
- Strong aromatic profile
- Hygienically continuous conveyor dried

INDUSTRIAL APPLICATIONS

- Meat processing and burger mixes
- Dry spice seasonings and marinades
- Catering, hotel, and restaurant use
- Bakery fillings and savory breads

ORIGIN: MAHUVA, GUJARAT, INDIA

Dehydrated Red Onion Granules

0.5-1 MM GRANULES

0.5-1 mm coarse red onion granules for uniform spice rubs.

Purity: 99% min **Moisture:** ≤ 5.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated Red Onion Granules offer 0.5-1 mm coarse mesh, ideal for automated industrial spice blending where lump-free flowability is critical.

Size / Mesh	0.5 - 1 mm Granules
Moisture Content	Max 5.0%
Total Ash	Max 4.0%
Acid Insoluble Ash	Max 0.4%
Microbiological	Microbial Count < 50,000 CFU/g

KEY QUALITY ATTRIBUTES

- 0.5-1 mm free-flowing granules
- Consistent particle size distribution
- Attractive pinkish-red hue
- Low moisture content prevents caking

INDUSTRIAL APPLICATIONS

- Table spice blends and barbecue rubs
- Bakery and savory biscuit toppings
- Dry soup bases and bouillons
- Industrial food processing

Inquiry Hotline / WhatsApp: **+91 72840 88737** | export@amarfoods.com

Dehydrated Red Onion Series

Pungent Mahuva Red Onion Flakes, Chopped, Minced, Granules & Powder

5 EXPORT GRADES

ORIGIN: MAHUVA, GUJARAT, INDIA

Dehydrated Red Onion Powder

80-100 MESH POWDER

80-100 mesh fine red onion powder with deep aromatic sweet pungency.

Purity: 99.5% min **Moisture:** ≤ 5.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated Red Onion Powder is pulverized to 80-100 mesh, offering a distinct pinkish-tan tone with a rich, caramelized sweet-pungent onion flavor.

Size / Mesh	80 - 100 Mesh Fine Powder
Moisture Content	Max 5.0%
Total Ash	Max 4.0%
Acid Insoluble Ash	Max 0.4%
Microbiological	E.Coli: Negative / Salmonella: Absent

KEY QUALITY ATTRIBUTES

- 80-100 mesh micro-fine powder
- Natural pinkish-buff color
- Instant solubility without sediment
- Rich in natural flavonoids & quercetin

INDUSTRIAL APPLICATIONS

- Instant soup powders and curries
- Potato chips and extruded snack dusting
- Sauce, dip, and gravy premixes
- Industrial spice grinding

Dehydrated Pink Onion Series

Sweet & Aromatic Pink Onion Flakes, Chopped, Minced, Granules & Powder

5 EXPORT GRADES

ORIGIN: MAHUVA, GUJARAT, INDIA

Dehydrated Pink Onion Flakes

8-15 MM FLAKES

Mahuva signature sweet pink kibbled onion flakes with gentle pungency.

Purity: 99% min **Moisture:** ≤ 6.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated Pink Onion Flakes are Mahuva specialties with tender sweetness and balanced pungency. 8-15 mm size is favored in European and Middle Eastern food industries.

Size / Mesh	8 - 15 mm Kibbled Flakes
Moisture Content	Max 6.0%
Total Ash	Max 4.5%
Acid Insoluble Ash	Max 0.5%
Microbiological	E.Coli: Negative / Salmonella: Absent

KEY QUALITY ATTRIBUTES

- 8-15 mm sweet pink kibbled flakes
- Mahuva geographic specialty cultivar
- Mild, sweet, and aromatic flavor
- Optical sorter graded for purity

INDUSTRIAL APPLICATIONS

- Middle Eastern & Mediterranean cuisines
- Sauces, gravies, and marinades
- Catering and institutional food service
- Meat and poultry formulations

ORIGIN: MAHUVA, GUJARAT, INDIA

Dehydrated Pink Onion Chopped

3-5 MM CHOPPED

3-5 mm pink onion chopped pieces for instant food products.

Purity: 99% min **Moisture:** ≤ 6.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated Pink Onion Chopped (3-5 mm) provides uniform texture with balanced sweet-sharp onion flavor for fast reconstitution in ready-to-eat meals.

Size / Mesh	3 - 5 mm Chopped
Moisture Content	Max 6.0%
Total Ash	Max 4.5%
Acid Insoluble Ash	Max 0.5%
Microbiological	Microbial Count < 100,000 CFU/g

KEY QUALITY ATTRIBUTES

- 3-5 mm chopped uniform cut
- Pleasant pink-buff natural appearance
- Fast reconstitution in liquids
- Hygienically packaged for export

INDUSTRIAL APPLICATIONS

- Instant soup and noodle seasoning packets
- Pizza toppings and pasta sauces
- Ready meals and stir-fry kits
- Savory snack inclusions

Inquiry Hotline / WhatsApp: **+91 72840 88737** | export@amarfoods.com

Dehydrated Pink Onion Series

Sweet & Aromatic Pink Onion Flakes, Chopped, Minced, Granules & Powder

5 EXPORT GRADES

ORIGIN: MAHUVA, GUJARAT, INDIA

Dehydrated Pink Onion Minced

1-3 MM MINCED

1-3 mm minced pink onion bits for seasonings and food service.

Purity: 99% min **Moisture:** ≤ 6.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated Pink Onion Minced (1-3 mm) delivers well-balanced sweetness and aroma, dissolving smoothly across meat coatings, gravies, and dry rubs.

Size / Mesh	1 - 3 mm Minced
Moisture Content	Max 6.0%
Total Ash	Max 4.5%
Acid Insoluble Ash	Max 0.5%
Microbiological	Microbial Count < 100,000 CFU/g

KEY QUALITY ATTRIBUTES

- 1-3 mm consistent minced particles
- Gentle sweet onion fragrance
- Retains natural crop goodness
- Pesticide & heavy metal tested

INDUSTRIAL APPLICATIONS

- Burger mixes and processed meats
- Dry spice seasonings and gravies
- HoReCa restaurant chains
- Bakery fillings and savory doughs

ORIGIN: MAHUVA, GUJARAT, INDIA

Pink Onion Granules

0.5-1 MM GRANULES

0.5-1 mm free-flowing pink onion granules for spice mixes.

Purity: 99% min **Moisture:** ≤ 5.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Pink Onion Granules offer 0.5-1 mm grain size with high bulk density. Free-flowing, non-caking, and ideal for automated seasoning shaker lines.

Size / Mesh	0.5 - 1 mm Granules
Moisture Content	Max 5.0%
Total Ash	Max 4.0%
Acid Insoluble Ash	Max 0.4%
Microbiological	Microbial Count < 50,000 CFU/g

KEY QUALITY ATTRIBUTES

- 0.5-1 mm free-flowing granules
- Uniform grain distribution
- High natural sweetness & low bitterness
- Zero sulfur bleaching or chemicals

INDUSTRIAL APPLICATIONS

- Seasoning shakers and barbecue rubs
- Bread toppings and savory crackers
- Dry soup bases and bouillons
- Industrial spice blending

Dehydrated Pink Onion Series

Sweet & Aromatic Pink Onion Flakes, Chopped, Minced, Granules & Powder

5 EXPORT GRADES

ORIGIN: MAHUVA, GUJARAT, INDIA

Dehydrated Pink Onion Powder

80-100 MESH POWDER

80-100 mesh ultra-fine pink onion powder for seasoning dusting.

Purity: 99.5% min **Moisture:** ≤ 5.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated Pink Onion Powder (80-100 mesh) features mild, sweet pungency from Mahuva pink cultivar. Excellent for seasoning blends, snack dusting, and soup bases.

Size / Mesh	80 - 100 Mesh Fine Powder
Moisture Content	Max 5.0%
Total Ash	Max 4.0%
Acid Insoluble Ash	Max 0.4%
Microbiological	Microbial Count < 50,000 CFU/g

KEY QUALITY ATTRIBUTES

- 80-100 mesh micro-pulverized
- Delicate sweet pink-cream tone
- Non-caking & free-flowing texture
- Non-ETO / Steam sterilized options

INDUSTRIAL APPLICATIONS

- Snack flavorings and seasoning dusts
- Instant soup powders and broths
- Sauce, dip, and gravy premixes
- Industrial spice blending

Whole & Ground Indian Spices

Sortex Clean Cumin, Coriander, Turmeric Fingers, Fennel Seeds & Star Anise

8 EXPORT GRADES

ORIGIN: GUJARAT / RAJASTHAN, INDIA

Whole Cumin Seeds (Jeera)

SORTEX 99.5% • EUROPE & SINGAPORE

Gujarat crop whole cumin seeds available in Machine Clean, Grinding, Singapore 98%/99%/99.5%, Europe 99.5%, and Cravings Jeera.

Purity: 99.5% min **Moisture:** ≤ 8.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Amar Foods Whole Cumin Seeds (Jeera) are procured directly from Gujarat prime agricultural belts, meticulously machine-cleaned and Sortex color-sorted. Renowned for their distinct warm, earthy aroma and rich essential oil content (2.5% - 4.0% volatile oil). Available across international export grades: Machine Clean, Grinding Quality, Singapore 98%, Singapore 99%, Singapore 99.5%, Europe 99.5%, and Cravings Jeera.

Available Forms	Machine Clean | Grinding | Singapore 99.5% | Singapore 99% | Singapore 98% | Europe 99.5% | Cravings Jeera
Purity / Cleanliness	98% to 99.5% Sortex Clean
Volatile Oil	2.5% - 4.0% v/w
Moisture Content	Max 8.0%
Total Ash	Max 8.5%

KEY QUALITY ATTRIBUTES

- Available in Machine Clean, Grinding, Singapore 98%/99%/99.5%, Europe 99.5%, Cravings Jeera
- Sortex cleaned up to 99.5% minimum purity with negligible foreign matter
- High volatile essential oil content (2.5% - 4.0% v/w)
- Bold, uniform seed size with rich natural brown-khaki coloration

INDUSTRIAL APPLICATIONS

- Global spice blending: Garam masala, curry powder, taco seasonings
- Bakery, savory crackers, and artisanal bread toppings
- Oleoresin and cumin oil supercritical extraction
- Commercial packaging for retail spice jars and HoReCa packs

ORIGIN: GUJARAT, INDIA

Pure Cumin Powder (Jeera Powder)

MICRO-GROUND SPICE

Cold-milled aromatic cumin powder preserving essential aroma and natural oils.

Purity: 99.5% min **Moisture:** ≤ 7.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Pure Cumin Powder is manufactured from selected cleaned cumin seeds, pulverized using temperature-controlled cold-grinding technology to prevent volatile oil dissipation. Delivers an intense, pungent, earthy flavor profile without bitter notes or added starch, providing instant uniform distribution in dry mixes and industrial sauces.

Size / Mesh	50 - 60 Mesh Fine Powder
Moisture Content	Max 7.0%
Volatile Oil Content	Min 1.8%
Total Ash	Max 8.5%
Acid Insoluble Ash	Max 1.2%

KEY QUALITY ATTRIBUTES

- Low-temperature pulverization preserving delicate volatile aromatics
- 100% pure cumin with zero starch, fillers, or artificial coloring
- Free-flowing, lump-free micro-mesh particle distribution
- Strict microbial control and steam sterilization options

INDUSTRIAL APPLICATIONS

- Spice seasoning blends, taco seasonings, and chili powders
- Instant soup bases, savory gravies, and marinades
- Snack seasoning dustings for namkeen and chips
- Food service, bulk commercial kitchens, and HoReCa

Whole & Ground Indian Spices

Sortex Clean Cumin, Coriander, Turmeric Fingers, Fennel Seeds & Star Anise

8 EXPORT GRADES

ORIGIN: GUJARAT / MP, INDIA

Whole Coriander Seeds (Dhania)

EAGLE & SCOOTER GRADE

Sun-dried golden-green coriander seeds with crisp citrus-floral fragrance.

Purity: 99.0% min **Moisture:** ≤ 9.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Amar Foods Whole Coriander Seeds (Dhania) are sourced from peak harvest Saurashtra and Central India farms. Offered in whole round and split grades (Eagle, Scooter, and Single/Double Parrot qualities), these seeds offer an elegant, sweet citrus-herbal aroma, high linalool essential oil concentration, and uniform golden-brown appearance.

Grade Quality	Eagle / Scooter / Split Sortex Clean
Moisture Content	Max 9.0%
Volatile Oil Content	Min 0.3% - 0.5%
Total Ash	Max 7.0%
Acid Insoluble Ash	Max 1.0%

KEY QUALITY ATTRIBUTES

- Choice of Eagle, Scooter, or Split Sortex cleaned grades
- Pleasant floral, citrusy, and mildly sweet aromatic notes
- Uniform spherical grain size with clean longitudinal ribs
- Fully compliant with international food safety standards (BRC, USFDA)

INDUSTRIAL APPLICATIONS

- Ground spice mixes, curry powders, and pickling spice blends
- Craft brewing, gin botanical distillation, and herbal beverages
- Meat curing, sausage brining, and marinade preparations
- Commercial re-milling and spice grinding facilities

ORIGIN: GUJARAT / MP, INDIA

Pure Coriander Powder (Dhania Powder)

AROMATIC CURRY BASE

Finely pulverized coriander seed powder, foundational spice for global cuisine.

Purity: 99% min **Moisture:** ≤ 8.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Pure Coriander Powder is produced by gently grinding cleaned, destoned coriander seeds. It acts as an indispensable thickening agent and flavor binder in gravies, curry sauces, and industrial seasonings, imparting a mellow, aromatic herbal warmth that bridges intense pungent spices.

Size / Mesh	60 - 80 Mesh Powder
Moisture Content	Max 8.0%
Total Ash	Max 7.0%
Acid Insoluble Ash	Max 1.0%
Crude Fiber	Max 28.0%

KEY QUALITY ATTRIBUTES

- Naturally aromatic without adulterants or spent coriander residue
- High bulk density and excellent moisture-binding capacity
- Fine, consistent mesh size for velvet-smooth gravies
- Non-irradiated and steam-sterilized export options

INDUSTRIAL APPLICATIONS

- Core building block for curry powder, garam masala, and sambar powder
- Ready-to-eat curries, canned gravies, and marinades
- Extruded snack flavorings and instant noodle tastemakers
- Butchery, sausage seasonings, and rub mixes

Whole & Ground Indian Spices

Sortex Clean Cumin, Coriander, Turmeric Fingers, Fennel Seeds & Star Anise

8 EXPORT GRADES

ORIGIN: MAHARASHTRA / GUJARAT / AP, INDIA

Whole Turmeric Fingers (Haldi Fingers)

DOUBLE POLISHED SALEM

Sun-cured, double-polished turmeric fingers with deep orange core.

Purity: 99% min **Moisture:** ≤ 10.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Whole Turmeric Fingers (Haldi) are select cured rhizomes, double-polished to remove outer skin debris and reveal a bright, golden-yellow shell. Prized for their high natural curcumin content (3.0% to 5.0%), solid core density, and crisp snap, our turmeric fingers are ideal for industrial extraction, spice grinders, and nutraceutical processing.

Polish Type	Double Polished Finger / Bulb Ratio < 3%
Curcumin Content	Min 3.0% - 5.0%
Moisture Content	Max 10.0%
Total Ash	Max 7.5%
Acid Insoluble Ash	Max 1.0%

KEY QUALITY ATTRIBUTES

- Double-polished Salem / Nizamabad grade with minimal bulb content
- High natural curcumin concentration (3.0% - 5.0% by HPLC)
- Hard, dense flinty fracture indicating optimal boiling and curing
- Free from artificial lead chromate, metanil yellow, or chemical polishes

INDUSTRIAL APPLICATIONS

- Industrial spice re-grinding and pulverizing plants
- Curcumin oleoresin and pharmaceutical extraction
- Herbal teas, golden milk formulations, and dietary supplements
- Natural textile dyeing and cosmetics

ORIGIN: GUJARAT / RAJASTHAN, INDIA

Whole Fennel Seeds (Saunf)

SINGAPORE & EUROPE GRADE

Sweet, aromatic green-tinged whole fennel seeds available in Singapore 99%, Semi Europe 99%, and Europe 99% grades.

Purity: 99% min **Moisture:** ≤ 8.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Amar Foods Whole Fennel Seeds (Saunf) are harvested from Gujarat and Rajasthan prime agricultural belts. Characterized by their sweet anise-like licorice flavor, pale green hue, and high volatile oil content (1.5% - 2.5%). Meticulously Sortex color-sorted and machine-cleaned to meet strict food and pharmaceutical export standards. Available in Singapore 99%, Semi Europe 99%, and Europe 99% grades.

Available Forms	Singapore 99% | Semi Europe 99% | Europe 99%
Purity / Cleanliness	Min 99.0% Sortex Clean
Volatile Oil Content	Min 1.5% - 2.5%
Moisture Content	Max 8.0%
Total Ash	Max 8.0%

KEY QUALITY ATTRIBUTES

- Available in Singapore 99%, Semi Europe 99%, and Europe 99% Sortex grades
- Vibrant natural green appearance with sweet licorice-anethole aroma
- High natural essential oil content (1.5% - 2.5% volatile oil)
- Multi-stage Sortex cleaned with negligible foreign matter

INDUSTRIAL APPLICATIONS

- Mouth fresheners (Mukhwas), confectionery, and chewing gums
- Bakery items: Italian breads, rye breads, bagels, and biscuits
- Herbal digestive teas, gripe water, and pharmaceutical syrups
- Spice blends: Curry powders, panch phoron, and meat seasonings

Whole & Ground Indian Spices

Sortex Clean Cumin, Coriander, Turmeric Fingers, Fennel Seeds & Star Anise

8 EXPORT GRADES

ORIGIN: INDIA / ASIA

Whole Star Anise (Chakra Phool)

HANDPICKED WHOLE PODS

Premium handpicked 8-pointed star anise pods with glossy seeds, rich anethole aroma, and zero broken content.

Purity: 99% min **Moisture:** ≤ 10.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Whole Star Anise (Illicium verum / Chakra Phool) consists of select, intact 8-pointed star-shaped pericarp pods containing shiny brown seeds. Renowned for its pungent sweet liquorice flavor and high essential oil content (anethole). Ideal for master spice blends (Garam Masala, Chinese Five-Spice), herbal teas, distillery extracts, and culinary flavoring.

Available Forms	Whole Star Anise (Sortex Clean & Handpicked)
Purity / Quality	Handpicked Whole Pods (Broken < 5%)
Volatile Oil (Anethole)	Min 8.0% - 10.0% v/w
Moisture Content	Max 10.0%
Total Ash	Max 5.0%

KEY QUALITY ATTRIBUTES

- Premium intact 8-pointed star pods with minimal broken carpels (< 5%)
- Glossy intact seeds with potent natural anethole essential oil
- Handpicked and Sortex machine-cleaned for export grade purity
- Essential for garam masala, five-spice, biryanis, and distillery extracts

INDUSTRIAL APPLICATIONS

- Master spice blends: Garam Masala, Chinese Five Spice, Biryani masalas
- Distilleries: Sambuca, Pastis, Absinthe, and aromatic liqueurs
- Herbal teas, chai infusions, and winter mulled spices
- Pharma extracts (Natural source of Shikimic acid)

ORIGIN: MAHARASHTRA / GUJARAT, INDIA

Pure Turmeric Powder (Curcumin Rich)

CURCUMIN 1% - 3.5%

High-curcumin golden turmeric powder available in 1%, 1.5%, 2%, 2.5%, 3%, and 3.5% Curcumin grades.

Purity: 99.5% min **Moisture:** ≤ 8.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Pure Turmeric Powder is processed from select cured whole turmeric fingers, micro-pulverized under cold-milling standards to safeguard natural volatile curcuminoids. It delivers an intense woody-spicy aroma, rich golden-yellow hue, and verifiable curcumin levels ranging from 1.0% to 3.5% for food processors, seasoning blenders, and pharmaceutical extraction.

Available Forms	1% Curcumin | 1.5% Curcumin | 2% Curcumin | 2.5% Curcumin | 3% Curcumin | 3.5% Curcumin
Curcumin Content	1.0% - 3.5% (Customized per Batch)
Size / Mesh	80 - 100 Mesh Micro Powder
Moisture Content	Max 8.0%
Total Ash	Max 7.0%

KEY QUALITY ATTRIBUTES

- Available in 1%, 1.5%, 2%, 2.5%, 3%, and 3.5% Curcumin export grades
- Vibrant golden-orange pigmentation with zero synthetic dyes or fillers
- Ultra-fine micro-pulverized 80-100 mesh free-flowing texture
- Certified free of Lead Chromate, Metanil Yellow, and starch adulterants

INDUSTRIAL APPLICATIONS

- Curry powders, seasonings, marinades, mustard, and golden milk blends
- Pharmaceutical and nutraceutical curcumin extract manufacturing
- Clean-label natural food coloring in extruded snacks and sauces
- Ayurvedic wellness products and organic health supplements

Crispy Fried & Toasted Onion Specialties

Crispy Fried Birista Onion & Slow-Oven Roasted Kibbled Flakes

2 EXPORT GRADES

ORIGIN: MAHUVA, GUJARAT, INDIA

Crispy Fried Onion (Birista)

CRISPY BIRISTA SLICES

Golden-brown, crunchy fried onion slices cooked in pure vegetable oil.

Purity: 99% min **Moisture:** ≤ 4.0% **Shelf Life:** 12 Months **Sterilization:** Steam / Heat Treated

Crispy Fried Onion (Birista) is prepared from fresh Mahuva onions, thinly sliced and fried to golden-brown crisp perfection in quality refined vegetable oil. Widely demanded across Middle Eastern, European, and Asian markets as a ready-to-use topping that delivers irresistible crunch, savory sweetness, and appetizing caramel notes without greasy residue.

Appearance	Golden Brown Crispy Slices
Moisture Content	Max 4.0%
Free Fatty Acid (FFA)	Max 0.8%
Peroxide Value	Max 5.0 meq/kg
Microbiological	TPC < 10,000 CFU/g | E. Coli: Absent

KEY QUALITY ATTRIBUTES

- Uniform golden-brown appearance with long-lasting crunch
- Crispy texture that holds structure in hot culinary applications
- No artificial preservatives, trans fats, or synthetic colorings
- Nitrogen-flushed barrier packaging to preserve freshness

INDUSTRIAL APPLICATIONS

- Biryani, pulao, and rice dish garnishing
- Burger toppings, hot dogs, and sandwiches
- Salad crunch toppings and bakery inclusions
- Ready-to-eat curries, korma sauces, and gravies

ORIGIN: MAHUVA, GUJARAT, INDIA

Toasted Dehydrated Onion Flakes & Powder

SLOW-ROASTED ALLIUM

Slow-oven roasted dehydrated onion delivering a deep nutty roasted flavor.

Purity: 99% min **Moisture:** ≤ 5.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Toasted Dehydrated Onion is created through a controlled thermal roasting process applied to premium dehydrated white and pink onion flakes. This gentle oven-toasting caramelizes natural onion sugars, imparting a complex roasted, nutty, and barbecue-like flavor profile that instantly enhances meats, gravies, and savory snacks.

Cut Available	Flakes (8-15mm), Granules (0.5-1mm), Powder (80-100 mesh)
Moisture Content	Max 5.0%
Total Ash	Max 4.5%
Acid Insoluble Ash	Max 0.5%
Microbiological	Salmonella: Absent | E. Coli: Negative

KEY QUALITY ATTRIBUTES

- Deep roasted caramel color and complex nutty aromatic profile
- Oil-free thermal roasting — healthy, low-fat alternative to fried onions
- Available in Toasted Flakes (8-15mm), Granules, and Toasted Powder
- Hygienically manufactured in Mahuva with zero additives

INDUSTRIAL APPLICATIONS

- Barbecue rubs, steak seasonings, and burger patties
- Artisanal breads, bagels, and savory bakery toppings
- Gravies, stews, and caramelized onion soup bases
- Extruded savory snacks and dip seasonings

Premium Gujarat Oilseeds

Auto-Sortex Natural White & Laser-Hulled Export Sesame Seeds (Til)

2 EXPORT GRADES

ORIGIN: GUJARAT, INDIA

Natural White Sesame Seeds (Til)

SORTEX CLEAN 99.95%

Premium sortex-cleaned natural white sesame seeds with rich nutty oil content.

Purity: 99.95% min **Moisture:** ≤ 6.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Amar Foods Natural White Sesame Seeds are harvested in the fertile coastal soils of Gujarat. Cleaned through advanced multi-stage Sortex optical sorters to achieve 99.95% purity, these seeds possess a mild nutty flavor, delicate crunch, and high natural oil content (min 48% oil). Extensively exported in consolidated container shipments alongside dehydrated onion and garlic.

Purity	Min 99.95% Sortex Clean
Oil Content	Min 48.0% - 50.0%
Moisture Content	Max 6.0%
FFA (as Oleic)	Max 1.5%
Dark Seeds / Admixture	Max 0.05%

KEY QUALITY ATTRIBUTES

- 99.95% Sortex machine clean purity with negligible foreign matter
- Natural ivory-cream unhulled seeds retaining full outer mineral hull
- High natural oil content (min 48%) and rich sesamin/sesamol antioxidants
- Purity tested for Salmonella, pesticide residues, and aflatoxins

INDUSTRIAL APPLICATIONS

- Bakery products, hamburger buns, breadsticks, and crackers
- Tahini paste, halva manufacturing, and hummus flavor base
- Asian cooking, sushi roll coating, and stir-fry garnishing
- Cold-pressed sesame cooking oil extraction

ORIGIN: GUJARAT, INDIA

Premium Hulled Sesame Seeds (Auto-Dried)

AUTO-DRY 99.98% PURITY

Mechanically hulled, auto-dried brilliant white sesame seeds with sweet nutty flavor.

Purity: 99.98% min **Moisture:** ≤ 5.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Premium Hulled Sesame Seeds are produced by mechanically de-husking selected raw white sesame seeds using a gentle wet or dry hulling process, followed by automated hygienic hot-air drying. De-husking removes the bitter outer skin, leaving a gleaming pearly-white seed that is sweet, tender, and easily digestible with an astonishing 99.98% Sortex purity.

Purity	Min 99.98% Sortex Clean
Oil Content	Min 50.0% - 52.0%
Moisture Content	Max 5.0%
FFA (as Oleic)	Max 1.0%
Un-hulled Seeds	Max 0.02%

KEY QUALITY ATTRIBUTES

- Pearly brilliant white uniform appearance without chemical bleaching
- Mechanically hulled and machine auto-dried for uniform low moisture
- Superior 99.98% Sortex purity designed for premium bakery exports
- Soft, sweet, tender mouthfeel with reduced oxalic acid content

INDUSTRIAL APPLICATIONS

- International bakery chains, gourmet burger buns, and pretzels
- Premium white tahini paste and traditional confectionery (Halva)
- Salad dressings, cereal mixes, and snack bars
- Pharmaceutical and cosmetic oil formulations

Inquiry Hotline / WhatsApp: **+91 72840 88737** | export@amarfoods.com

Dehydrated Root & Botanical Crops

Ginger (Sonth), Pure Turmeric, Vibrant Beetroot & Beta-Carotene Carrot Powders

4 EXPORT GRADES

ORIGIN: GUJARAT / KERALA, INDIA

Pure Ginger Powder (Sonth)

HIGH GINGEROL

Warm, pungent, spicy aroma ground from sun-cured ginger rhizomes.

Purity: 99% min **Moisture:** ≤ 8.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Pure Dried Ginger Powder (Sonth) is processed from selected cured ginger rhizomes. Characterized by sharp pungency, high gingerol active compounds, and clean golden-yellow color. Widely used in confectionery, bakery, spice blends, and herbal beverages.

Size / Mesh	80 - 100 Mesh Powder
Moisture Content	Max 8.0%

Ginger (Sonth), Pure Turmeric, Vibrant Beetroot & Beta-Carotene Carrot Powders

4 EXPORT GRADES

ORIGIN: INDIA

Dehydrated Carrot Powder

RICH BETA-CAROTENE

Sweet natural golden-orange powder for bakery, baby foods, and soups.

Purity: 99% min **Moisture:** ≤ 6.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated Carrot Powder is produced from selected sound fresh carrots, gently air-dried to retain high beta-carotene (Provitamin A) and natural sweetness. Enhances color, nutritional density, and texture across processed food products.

Size / Mesh	80 - 100 Mesh Powder
Moisture Content	Max 6.0%
Total Ash	Max 7.5%
Color	Vibrant Natural Golden-Orange
Microbiological	TPC < 50,000 CFU/g | Salmonella: Absent

KEY QUALITY ATTRIBUTES

- Rich natural source of Beta-Carotene & Vitamin A
- Natural sweet carrot aroma and pleasant orange tint
- Micro-pulverized for rapid solubility & uniform dispersion
- Free from chemical preservatives or starch fillers

INDUSTRIAL APPLICATIONS

- Baby food cereals and infant nutritional blends
- Instant soup premixes and sauce bases
- Bakery: Cakes, muffins, breads, and pasta extrusion
- Seasoning dusting and extruded savory snacks

ORIGIN: INDIA

Sweet Potato Powder

HIGH DIETARY FIBER

Nutrient-dense complex carbohydrate powder for health foods and baking.

Purity: 99% min **Moisture:** ≤ 7.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Sweet Potato Powder is made from whole washed sweet potatoes, dried and milled into a versatile, nutrient-dense flour. Packed with complex slow-burning carbohydrates, dietary fiber, and minerals, making it a staple for gluten-free baking and sports nutrition.

Size / Mesh	80 - 100 Mesh Powder
Moisture Content	Max 7.0%
Carbohydrate	Min 80%
Dietary Fiber	Min 6.0%
Microbiological	TPC < 50,000 CFU/g | E.Coli: Negative

KEY QUALITY ATTRIBUTES

- Excellent gluten-free grain alternative flour
- High in resistant starch, dietary fiber, and minerals
- Subtle sweet nutty flavor and smooth mouthfeel
- Hygienically dehydrated to preserve nutritional bio-actives

INDUSTRIAL APPLICATIONS

- Gluten-free baking: Pancakes, breads, cookies, and pastas
- Meal replacement shakes & sports nutrition mixes
- Baby foods and weaning purees
- Thickening agent in clean-label soups and gravies

7 EXPORT GRADES

ORIGIN: INDIA

Coriander Leaf Powder (Cilantro)

DEHYDRATED HERB

Fresh culinary herbal aroma preserved through gentle low-temperature drying.

Purity: 99% min **Moisture:** ≤ 7.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated Coriander Leaf Powder is prepared from selected aromatic green cilantro leaves. Dehydrated at controlled temperatures to retain natural chlorophyll and the characteristic zesty herbal notes of freshly picked coriander.

Size / Mesh	60 - 80 Mesh Powder
Moisture Content	Max 7.0%
Total Ash	Max 12.0%
Acid Insoluble Ash	Max 1.2%
Microbiological	TPC < 50,000 CFU/g | E.Coli: Negative

KEY QUALITY ATTRIBUTES

- Authentic fresh cilantro aroma and flavor
- Clean olive-green powder appearance
- Easy to incorporate into dry seasoning blends
- Free from stalks, grit, and foreign matter

INDUSTRIAL APPLICATIONS

- Salsa, guacamole, and Mexican seasoning blends
- Curry powders, biryani premixes, and dal seasoning
- Dry soup mixes, ramen garnishes, and gravies
- Extruded snack dusting and namkeen blends

ORIGIN: SOUTH INDIA / GUJARAT, INDIA

Curry Leaf Powder (Kadi Patta)

AUTHENTIC HERBAL AROMA

Distinctive South Asian herbal seasoning for curries, rasam, and spice blends.

Purity: 99% min **Moisture:** ≤ 7.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Curry Leaf Powder (Murraya Koenigii) is manufactured from aromatic tropical curry leaves. Celebrated in South Indian and Asian culinary traditions for its unique pungent, citrusy herbal aroma and proven digestive properties.

Size / Mesh	60 - 80 Mesh Powder
Moisture Content	Max 7.0%
Total Ash	Max 9.5%
Acid Insoluble Ash	Max 1.0%
Microbiological	TPC < 50,000 CFU/g | Salmonella: Absent

KEY QUALITY ATTRIBUTES

- Distinctive citrus-herbal aroma unique to curry leaves
- Rich in plant iron, antioxidants, and essential oils
- Shade-dried to preserve natural leaf aroma
- 100% pure without adulteration or synthetic flavors

INDUSTRIAL APPLICATIONS

- Sambar, rasam, and South Indian spice premixes
- Chutney powders (podi) and dry seasoning rubs
- Ayurvedic wellness tonics and hair health formulations
- Savory snack dusting: Makhana, chips, and murukku

Dehydrated Leafy Greens & Culinary Herbs

Kasuri Methi, Mint (Pudina), Coriander, Spinach, Moringa, Curry Leaves & Parsley

7 EXPORT GRADES

ORIGIN: RAJASTHAN / GUJARAT, INDIA

Kasuri Methi (Dried Fenugreek Leaves)

NAGAURI HERB GRADE

Signature aromatic culinary herb prized for butter chicken, curries, and parathas.

Purity: 99% min **Moisture:** ≤ 8.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Kasuri Methi consists of sun-dried whole and crushed leaves of the special Nagauri fenugreek plant. Highly aromatic with an appetizing bitter-sweet herbal fragrance that imparts restaurant-grade richness to gravies, breads, and curries.

Form / Cut	Crushed Whole Leaves / Powder
Moisture Content	Max 8.0%
Total Ash	Max 10.0%
Acid Insoluble Ash	Max 1.5%
Microbiological	TPC < 50,000 CFU/g | E.Coli: Negative

KEY QUALITY ATTRIBUTES

- Authentic Nagauri cultivar with intense herbal aroma
- Crisp, clean green-brown crushed leaves & fine powder
- Optical sorted to eliminate weeds and stems
- Sealed in moisture-barrier bags to lock in aroma

INDUSTRIAL APPLICATIONS

- Indian restaurant curries: Paneer butter masala, dal makhani
- Bakery & breads: Methi parathas, thepla, and naan doughs
- Dry spice blends and marinade rubs
- Ready-to-eat gravy retorts and meal kits

Dehydrated Vegetables & Chilli Range

Fiery Green Chilli, Guntur/Byadgi Red Chilli Flakes & Spray-Dried Tomato Powder

3 EXPORT GRADES

ORIGIN: GUJARAT, INDIA

Dehydrated Green Chilli (Flakes & Powder)

SHARP FRESH PIQUANCY

Authentic green pepper heat with fresh piquancy available in Flakes, Minced, and Fine Powder.

Purity: 99% min **Moisture:** ≤ 6.5% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dehydrated Green Chilli is processed from fresh, selected green hot chillies dehydrated under controlled low temperatures to retain authentic pungency, essential oils, and vibrant olive-green color. Engineered for food processors needing fiery piquancy without transferring red color to light-colored gravies and snacks. Available in Kibbled Flakes (3-5 mm), Minced/Granules (1-3 mm), and Fine Powder (60-80 Mesh).

Available Forms	Flakes (3-5 mm) | Minced (1-3 mm) | Powder (60-80 Mesh)
Moisture Content	Max 6.5%
Pungency / Heat	High Capsaicin (40,000 - 70,000 SHU)
Total Ash	Max 7.5%
Microbiological	TPC < 50,000 CFU/g | E.Coli: Negative | Salmonella: Absent

KEY QUALITY ATTRIBUTES

- Available in Flakes (3-5 mm), Minced (1-3 mm) & Fine Powder (60-80 Mesh)
- Sharp, authentic green pepper capsaicin heat with instant pungency
- Natural light olive-green appearance without artificial dyes (Malachite green free)
- Fast rehydration in soups, cup noodles, and ready-to-eat meals

INDUSTRIAL APPLICATIONS

- Instant soup powders, cup noodles, and seasoning rubs
- Namkeen, potato chips, popcorn, and extruded corn snacks
- Chutneys, dips, salad dressings, and table spice mixes
- Meat processing, burger patties, sausages, and dry curry mixes

ORIGIN: GUNTUR / GUJARAT, INDIA

Premium Red Chilli Powder

EXPORT GRADE A TO RUSSIA

Processed stemless red chilli powder available in Russia Grade, Gulf D Grade, C, B, A Grade, and Kashmiri.

Purity: 99% min **Moisture:** ≤ 8.5% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Premium Red Chilli Powder is pulverized from sun-dried, 100% stemless whole red chilli pods. Features an intense crimson color, high natural ASTA color value, and customizable heat ratings. Available across international export grades including Russia Grade, Gulf D Grade, C Grade, B Grade, A Grade, and Kashmiri.

Available Forms	Russia Grade | D Grade (Gulf) | C Grade | B Grade | A Grade | Kashmiri
Size / Mesh	60 - 80 Mesh Fine Powder
ASTA Color Value	60 - 140 ASTA (Graded by Variant)
Pungency (SHU)	15,000 - 65,000 SHU (Kashmiri to Extra Hot)
Moisture Content	Max 8.5%

KEY QUALITY ATTRIBUTES

- Available in Russia Grade, Gulf D Grade, C Grade, B Grade, A Grade & Kashmiri
- 100% stemless whole chilli pods processed with vibrant natural red hue
- High natural ASTA color value (60 - 140 ASTA Units graded by variant)
- Aflatoxin (< 10 ppb EU compliant) & Sudan dye tested (1 to 4: Negative)

INDUSTRIAL APPLICATIONS

- Culinary spice blends: Garam masala, curry powder, chili powder, taco mixes
- Snack seasoning: Spicy chips, crisps, namkeen, and crackers
- Hot sauces, barbecue marinades, ketchup, and pickle manufacturing
- Meat, poultry, and seafood processing

Dehydrated Vegetables & Chilli Range

Fiery Green Chilli, Guntur/Byadgi Red Chilli Flakes & Spray-Dried Tomato Powder

3 EXPORT GRADES

ORIGIN: GUNTUR / GUJARAT, INDIA

Crushed Red Chilli Flakes (Pizza Cut)

LOW • REGULAR • DELUXE

Coarse kibbled red chilli flakes with natural yellow seeds available in Low, Regular, and Deluxe export grades.

Purity: 99% min **Moisture:** ≤ 8.5% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Crushed Red Chilli Flakes (Pizza Cut) are manufactured from selected dried whole red chilli pods, coarsely crushed with natural seeds to deliver vibrant crimson-and-gold visual appeal and fiery piquancy. Widely demanded by HoReCa chains, seasoning manufacturers, and pizza brands across the globe. Available in Low, Regular, and Deluxe export grades.

Available Forms	Low | Regular | Deluxe
Size / Cut	2 - 4 mm Crushed Flakes with Seeds
Moisture Content	Max 8.5%
ASTA Color	60 - 100 ASTA Units
Microbiological	TPC < 50,000 CFU/g | Salmonella: Absent

KEY QUALITY ATTRIBUTES

- Available in Low, Regular, and Deluxe export quality grades
- Uniform 2-4 mm flake cut with vibrant crimson color and golden seeds
- Ideal for pizza toppings, table sachets, pasta seasoning, and spice mills
- Steam-sterilized, Aflatoxin (< 10 ppb) & Sudan dye tested

INDUSTRIAL APPLICATIONS

- Pizza toppings, pasta sauces, and Italian seasoning blends
- HoReCa condiment sachets and glass spice shaker grinders
- Barbecue dry rubs, sausages, and savory snack dusting
- Infused chilli oils, chili crisps, and artisan condiments

Pure Fruit & Souring Flavor Powders

Dry Raw Mango (Amchur), Lemon/Lime Juice, Tamarind (Imli) & Pomegranate (Anardana)

4 EXPORT GRADES

ORIGIN: INDIA

Dry Mango Powder (Amchur)

NATURAL TART SOURING

Zesty, tangy, clean acidity ground from raw green mangoes for marinades and chaats.

Purity: 99% min **Moisture:** ≤ 8.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Dry Mango Powder (Amchur) is made by peeling, slicing, sun-drying, and grinding unripe green mangoes. Serves as a premier natural souring agent with a pleasant tartness, fruity aroma, and pale tan-beige color.

Size / Mesh	80 - 100 Mesh Powder
Moisture Content	Max 8.0%
Acidity (as Citric Acid)	12.0% - 18.0%
Total Ash	Max 6.0%
Microbiological	TPC < 50,000 CFU/g | Salmonella: Absent

KEY QUALITY ATTRIBUTES

- 100% natural fruit acid (Citric & Malic acid profile)
- Adds instant tartness without introducing moisture
- Pale tan color blends invisibly into food preparations
- Rich in Vitamin C and natural fruit bio-compounds

INDUSTRIAL APPLICATIONS

- Chaat masalas, samosa fillings, and street food seasonings
- Meat tenderizing marinades and barbecue dry rubs
- Curries, dals, and vegetable souring agents
- Pickles and dry savory snack dusting

ORIGIN: INDIA

Spray-Dried Tomato Powder

HIGH LYCOPENE & UMAMI

Spray/air-dried concentrated ripe tomato pulp with intense sweet-tart flavor.

Purity: 99% min **Moisture:** ≤ 5.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Spray-Dried Tomato Powder is processed from concentrated ripe red tomato paste. Dissolves instantly in water to yield a rich, flavorful tomato paste or sauce base with authentic ripe tomato aroma and natural lycopene red color.

Size / Mesh	80 - 100 Mesh Powder
Moisture Content	Max 5.0%
Color	Deep Tomato Red
Total Acidity	Min 6.0%
Microbiological	TPC < 30,000 CFU/g | Pathogens: Absent

KEY QUALITY ATTRIBUTES

- High natural Lycopene antioxidant and rich umami flavor
- Instant solubility in cold and hot water
- Vibrant natural red-orange color
- Free-flowing powder without clump formation

INDUSTRIAL APPLICATIONS

- Instant tomato soup premixes and pasta sauce bases
- Pizza sauce mixes, ketchup, and barbecue sauces
- Potato chip dusting, snack seasonings, and crackers
- Ready meals, gravies, and dry ramen flavorings

Pure Fruit & Souring Flavor Powders

Dry Raw Mango (Amchur), Lemon/Lime Juice, Tamarind (Imli) & Pomegranate (Anardana)

4 EXPORT GRADES

ORIGIN: INDIA

Natural Lemon Powder

CITRUS ACID PROFILE

Free-flowing spray-dried natural lemon extract for beverages, seasonings, and bakery.

Purity: 99% min **Moisture:** ≤ 5.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Natural Lemon Powder is prepared by spray-drying freshly extracted lemon juice. Delivers clean, refreshing citric acidity and vibrant lemon peel aroma in a stable, convenient powder form that won\

Size / Mesh	80 - 100 Mesh Powder
Moisture Content	Max 5.0%
Acidity (as Citric Acid)	15% - 25%
Solubility	Complete in Water
Microbiological	TPC < 25,000 CFU/g | E.Coli: Negative

KEY QUALITY ATTRIBUTES

- Crisp, zesty, natural lemon citrus flavor profile
- High natural citric acid & Vitamin C content
- 100% water soluble without residual pulp particles
- Non-clumping free-flowing powder formulation

INDUSTRIAL APPLICATIONS

- Beverages: Instant lemonade, iced teas, and sports drinks
- Bakery: Lemon tarts, cookies, icings, and fillings
- Salad dressing premixes, marinades, and fish seasonings
- Confectionery: Hard candies, gums, and jellies

ORIGIN: INDIA

Pure Tamarind Powder

TART & TANGY EXTRACT

Authentic sour tamarind pulp in a convenient, non-caking free-flowing powder form.

Purity: 99% min **Moisture:** ≤ 6.0% **Shelf Life:** 24 Months **Sterilization:** Steam / Heat Treated

Pure Tamarind Powder is extracted from mature tamarind pulp, dried into a free-flowing powder. Replaces sticky, seed-laden tamarind blocks with an easy-to-dose, instant-dissolving souring agent that imparts genuine tropical tartness.

Size / Mesh	80 - 100 Mesh Powder
Moisture Content	Max 6.0%
Total Tartaric Acid	Min 12.0%
Total Ash	Max 5.5%
Microbiological	TPC < 30,000 CFU/g | Salmonella: Absent

KEY QUALITY ATTRIBUTES

- Authentic tart-sweet tropical tamarind flavor
- Free-flowing, lump-free powder replaces sticky paste
- Instant solubility in hot or cold preparations
- 100% natural without synthetic souring chemicals

INDUSTRIAL APPLICATIONS

- South Indian sambar, rasam, and puliyogare rice mixes
- Tamarind chutney premixes and barbecue sauces
- Asian marinades, pad thai sauce bases, and soups
- Tangy confectionery and extruded snack seasoning
