

Excellent Dry to Try!

Premium Dehydrated Onion & Garlic — From Farm to World

COMPANY INTRODUCTION

Amar Foods is a dehydrated onion and garlic manufacturer committed to delivering consistent quality and freshness in every batch. With a strong foundation in production and processing, we have built our reputation on precision, hygiene, and reliability.

As we expand our reach into global markets, **Amar Foods** brings the same dedication to quality that has defined our journey — now packaged for international buyers who demand the best in dehydrated ingredients. From our processing facility to your warehouse, we combine trusted production standards with export-ready practices, ensuring every shipment meets the expectations of global food manufacturers, distributors, and retailers.

ADVANCED FACILITIES

Modern infrastructure and technology enable consistent quality and high production standards.

SKILLED TEAM

Experienced professionals ensuring precision, hygiene, and care in every step of production.

QUALITY ASSURANCE

Strict hygiene and quality controls to meet global food safety and quality standards.

Why Choose AMAR FOODS

01 CONSISTENT QUALITY

Every batch is processed under controlled conditions to maintain uniform color, moisture content, and flavor, so what you order is what you get, every time.

02 FARM-FRESH SOURCING

Raw onion and garlic are sourced directly, ensuring freshness from field to dehydration, which translates into better taste and shelf life.

03 WIDE PRODUCT RANGE

Flakes, granules, powder, and minced forms, available in multiple grades and mesh sizes to match your formulation or packaging needs.

04 EXPORT-READY OPERATIONS

Documentation, packaging standards, and reliable shipping timelines built around international buyer requirements.

05 FLEXIBLE PACKAGING

Bulk and custom packaging options adaptable to your business requirements.

06 COMPETITIVE PRICING

Direct-from-producer pricing means quality products without unnecessary middleman costs.

07 RESPONSIVE COMMUNICATION

A dedicated export team ensures quick responses to inquiries, samples, and order follow-ups.

Quality & Food Safety

Amar Foods follows strict quality control practices at every stage of processing - from raw material selection to final packaging - to ensure products consistently meet hygiene, purity, and safety standards expected by international buyers.

Careful raw material selection
and grading before processing.

Controlled dehydration process
to maintain color, flavor, and nutritional value.

Hygienic handling and packaging
to preserve product integrity during storage and transit.

Batch consistency checks
to ensure every shipment matches the agreed specification.

PURE • SAFE • CONSISTENT

*That's the **Amar** Promise.*
